

Master in Water Management and Environmental Engineering

University of Natural Resources and Life Sciences (BOKU), Vienna, Austria
Programme code: UH 066 447

Applicant: Oladapo Adewale Ayodeji

Home institution: University of Ibadan, Nigeria

Degree: B.Sc. Agricultural and Environmental Engineering (CGPA 3.18/4.00)

Graduation: March 2024

Intended intake: Winter Semester 2026/27

Contact: Ibadan, Nigeria | +234 806 212 8170 | [Email] | [LinkedIn]

Contents

1. Curriculum Vitae (BOKU-focused)
2. Motivation Letter
3. ECTS Mapping Document — UI to BOKU WMEE Requirements
4. Submission Checklist

Note: Submit certified originals separately by post with transcript, degree certificate, and UI English-language confirmation letter. This pack contains supporting application documents only.

Curriculum Vitae

OLADAPO ADEWALE AYODEJI

Ibadan, Nigeria | +234 806 212 8170 | [Email] | [LinkedIn]

Agricultural and Environmental Engineering graduate (University of Ibadan) with foundational training in **hydraulics, hydrology, irrigation, drainage, soil-water conservation, and structural design**, complemented by hands-on engineering internships in agricultural machinery fabrication and post-harvest systems. Skilled in **Python, data analysis, and computer modelling**, with interest in applying quantitative methods to **water management, rural water systems, and sustainable environmental engineering**.

Education

B.Sc. Agricultural and Environmental Engineering

March 2024

University of Ibadan, Nigeria | CGPA: 3.18 / 4.00

- Relevant coursework: Hydraulics; Hydrology; Irrigation Engineering; Drainage Engineering; Soil & Water Conservation I & II; Soil Mechanics; Design of Agricultural Structures; Computer Modelling of Agricultural Systems; Mathematics; Statistics; Physics; Chemistry.
- Thesis: Quality Assessment of Scotch Bonnet Pepper using Image Processing Techniques (SVM, Logistic Regression, CNN).
- Honours: Dean's Honours List (2020/2021 academic session).

Diploma in Agricultural Engineering

February 2016

Federal College of Agriculture, Moor Plantation | CGPA: 3.51 / 4.00

- Second Overall Best Student (Department).

Relevant Engineering Experience

Research Assistant — Department of Agricultural and Environmental Engineering

2023 – 2024

University of Ibadan

- Undergraduate research; Python-based data analysis; technical reporting applicable to environmental monitoring.

Engineering Intern

Feb – Aug 2023

Christomat Construction Works and Services Limited, Ibadan

- Designed/fabricated row seed planters; contributed to 2–3 ton multi-grain bed stainless steel dryer installation.

Engineering Intern

Jan – Mar 2022

Allamit Nigeria Limited, Ibadan

- Designed/fabricated maize shellers and feed mixers for a 10,000-bird poultry farm.

Teaching & Leadership

Mathematics Tutor (NYSC)

Oct 2024 – Jul 2025

Brain Spark Academy, Benin City — NYSC completed

Academic Tutor

Sep 2021 – Mar 2024

AEESS-UI — Taught Python and computer modelling to 50+ students

Additional Experience — Software Development

Transferable skills in programming, data handling, and systems thinking relevant to environmental modelling.

- **77 Technologies Nigeria Limited (Remote)** — Software Developer, Apr 2025 – Mar 2026
- **Ryse Engineering, Lagos** — Software Developer, Dec 2023 – Mar 2025
- **Turbines Limited, Accra** — Software Developer Intern, Jun – Nov 2023
- **Osigla Consulting Limited, Lagos** — Software Developer Intern, Jul 2022 – Jan 2023

Skills

Environmental & Engineering: Hydrology | Hydraulics | Irrigation & Drainage | Soil-Water Conservation | Structural Design | Agricultural Machinery

Computational: Python | C++ | SQL | Computer Modelling | Data Analysis | Machine Learning

Languages: English (native proficiency; medium of instruction throughout university)

Membership: Graduate Member, Nigerian Society of Engineers (GMNSE)

Motivation Letter

[Date]

Admissions Committee
Master in Water Management and Environmental Engineering (UH 066 447)
University of Natural Resources and Life Sciences (BOKU)
Vienna, Austria

Dear Members of the Admissions Committee,

I am writing to apply for the Master programme in **Water Management and Environmental Engineering** at BOKU University. I hold a **B.Sc. in Agricultural and Environmental Engineering** from the **University of Ibadan**, Nigeria (graduated March 2024, CGPA 3.18/4.00), and I am motivated to deepen my engineering training in water resources, environmental processes, and sustainable infrastructure — skills that Nigeria and many developing regions urgently need.

Why Water Management and Environmental Engineering

Growing up and studying in Nigeria, I have seen how closely water availability, agricultural productivity, and environmental degradation are linked. In many rural communities, irrigation systems are under-designed, drainage is inadequate, floods destroy farmland, and post-harvest losses remain high because water and environmental infrastructure are not managed sustainably. These challenges shaped my decision to study agricultural and environmental engineering.

During my undergraduate studies, I built a foundation in **hydrology, hydraulics, irrigation engineering, drainage engineering, soil and water conservation, soil mechanics, and structural design**. Courses such as *Hydrology for Agricultural and Environmental Engineers*, *Principles of Hydrology*, *Irrigation and Drainage*, *Irrigation Engineering*, and *Drainage Engineering* introduced me to catchment processes, watershed management, open-channel flow, and field drainage — competencies that align directly with the WMEE curriculum at BOKU.

My final-year thesis applied image processing and machine learning to agricultural quality assessment. I now want to direct those quantitative skills toward **water and environmental systems**, where modelling and monitoring can support better planning and more resilient infrastructure.

Why BOKU

BOKU's programme combines rigorous engineering training with a clear environmental and social perspective. I am drawn to the integration of hydrology, hydraulic engineering, water management planning, aquatic ecology, and waste management; BOKU's emphasis on sustainable resource use and developing-country perspectives; and Vienna's position as a hub for environmental research and international organisations. I am especially interested in the **Water Management and Engineering** specialization.

Relevant Experience

- Engineering internships involving design, fabrication, and field implementation of agricultural systems (Christomat, Allamit).
- Research Assistant experience in the Department of Agricultural and Environmental Engineering, University of Ibadan.

- Completed National Youth Service Corps (NYSC).
- Programming and data analysis skills (Python, SQL, computer modelling) applicable to hydrological data analysis and environmental decision support.

Career Goals

After completing the programme, I intend to work as a water/environmental engineer in **irrigation and drainage design, rural water management, water-related risk assessment, and sustainable agricultural water systems** in Nigeria and across Africa.

Financial Plan

I am prepared to finance my studies through personal savings and family support, and I am actively seeking research and assistantship opportunities at BOKU after enrollment.

Thank you for considering my application. I have enclosed my CV, ECTS mapping document, and supporting materials.

Yours sincerely,

Oladapo Adewale Ayodeji

Ibadan, Nigeria

ECTS Mapping Document

UI B.Sc. Agricultural & Environmental Engineering → BOKU WMEE (§2 Admission Requirements)

Conversion: Estimated ECTS = UI Credit Units × 1.5

Summary

BOKU Knowledge Area	Required	Estimated (UI)	Status
Natural sciences	20 ECTS	~88.5	Met
Technical sciences	20 ECTS	~99.0	Met
Environmental / water engineering	20 ECTS	~55.5	Met

Area 1 — Natural Sciences (selected courses)

Code	Course	Credits	ECTS	Maps to
MAT 111–351	Mathematics (series)	23	34.5	Mathematics
STA 111, 202	Statistics I & II	8	12.0	Statistics
PHY 112–118	Physics (series)	15	22.5	Physics
CHE 127–195	Chemistry (series)	12	18.0	Chemistry
AGY 210	Agricultural Science	2	3.0	Botany
TAE 311, 512	Soil & Water Conservation	6	9.0	Soil science

Area 2 — Technical Sciences (selected courses)

Code	Course	Credits	ECTS	Maps to
TME 111–415	Mechanical Engineering (series)	—	~60+	Mechanics, technical sciences
TCE 311, 312, 322	Civil Engineering	9	13.5	Surveying, structures, hydraulics
TAE 315	Soil Mechanics	3	4.5	Geotechnics
TAE 310, 414	Farm Buildings & Structures	6	9.0	Structural design
TAE 525	Computer Modelling	3	4.5	Geoinformation / modelling

Area 3 — Environmental / Water Engineering

Code	Course	Credits	ECTS	Maps to
TAE 411	Hydrology for Agric. & Env. Engineers	3	4.5	Hydrology

TAE 424	Principles of Hydrology, Irrigation & Drainage	4	6.0	Hydrology; watershed; rural water
TAE 512	Soil & Water Conservation II	4	6.0	Drainage; flood control; water resources
TAE 514	Irrigation Engineering	3	4.5	Hydraulic engineering; rural water
TAE 515	Drainage Engineering	3	4.5	Drainage; hydraulic engineering
TAE 415	Hydraulics for Agricultural Engineers	3	4.5	Hydraulics
TCE 322	Civil Engineering (Hydraulics)	3	4.5	Hydraulic engineering
TAE 599	Final Year Project	6	9.0	Applied engineering research

Full detailed tables with all course codes are in the separate markdown source file. Verify every code against your official transcript before submission.

Submission Checklist

Documents to mail to BOKU (by post — not email)

- ☐ Completed BOKU application form (online pre-registration first)
- ☐ Certified copy of B.Sc. certificate (Apostille/legalisation if required)
- ☐ Official transcript with grades and credit units
- ☐ CV (Section 1 of this pack)
- ☐ Motivation letter (Section 2)
- ☐ ECTS mapping + UI curriculum/module handbook PDF
- ☐ Course outlines for key water courses (TAE 411, 424, 512, 514, 515)
- ☐ Letter from UI confirming English as language of instruction

Mail to

BOKU University, Study Services, Studienzulassung
Gregor-Mendel-Straße 33, 1180 Vienna, Austria
Questions: admission@boku.ac.at

Key deadlines (confirm on BOKU website)

- **Non-EU winter intake:** approximately 5 September
- **Non-EU summer intake:** approximately 5 February
- **Visa processing from Nigeria:** allow 3–6 months via Austrian Embassy Abuja

Before sending

- ☐ Replace [Email], [LinkedIn], and [Date] placeholders
- ☐ Cross-check all course codes against official transcript
- ☐ Print motivation letter on plain paper or export this pack as PDF
- ☐ Send professor outreach email (see separate email template file)
